

# Sustainability at Loreto Abbey Dalkey

By Aine, Stephanie and Leah

There's an  
estimated **1.3**  
**billion** plastic  
bottles used  
each day!

The global consumption of paper has increased almost **75%** since 1990.

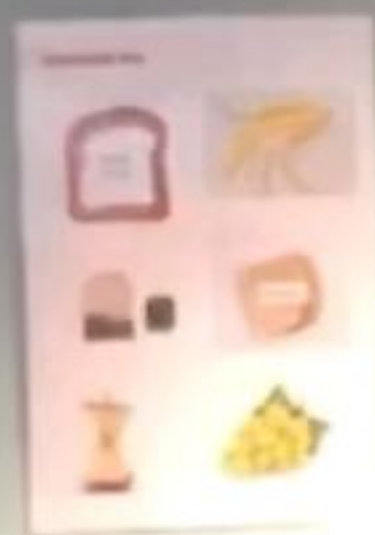

Every year 2.12 billion tons  
of waste is dumped.

A man with a beard and a dark jacket is standing next to a bicycle. He is looking directly at the camera. The background features a stone wall and a metal frame structure. The text "Why is using sustainable modes of transport important?" is overlaid on the image in white, bold, sans-serif font.

**Why is using sustainable modes  
of transport important?**

Thank you all for listening 😊
