# OUR PROJECT

— WHAT HAVE WE DONE? —

---

---

# HOW DID WE DO IT?

We used a qualitative study and helped us with the program NVivo 12 to analyse the newspapers.

# NEWSPAPERS USED

We used some newspapers like:

El País (Spain)

ABC (Spain)

Il Fatto Quotidiano (Italy)

Pravda (Russia)

המחדש (Israel)

Russian newspaper

## Spanish newspaper

## All newspapers

# In conclusion...

...analysing these news and creating a visual element like the cloud of words has been an enriching experience. We can understand how the language can be used for including an idea which stands out above the others and that is normally received by whoever reads the news.

A word cloud where the words are arranged in a roughly rectangular shape. The central and largest word is "thank you" in red. Other prominent words include "gracias" in green, "danke" in blue, "merci" in orange, and "dziękuję" in purple. Smaller words like "arigato", "terima kasih", "mochchakkeram", and "tapadh leat" are also visible. The colors used for the words include red, green, blue, orange, purple, yellow, and brown.
