The myth - Il mito - Der Mythos

In 1914 to celebrate the 100th anniversary of the Tyrolean annexation a bronze monument of Andreas Hofer was built. The statue is located in front of the Merano railway station on the Prader square. The work created by artist Emanuel Pendel shows Hofer as a freedom fighter. The words 'for God, the Emperor and the Fatherland' are inscribed on the front of the monument. Up to this day, the memorial is a meeting place for official ceremonies, which are regularly attended by the Schützen companies from South Tyrol, Trentino and Tyrol.
